EXTRA NOTES:

CHP PAYMENTS

- If it is not posted the CHP payment, send a WQ to cash posting
- If CHP paid 0, it should say zero on Meditech under Receipts under de column HCHPHX (but not always will it appear posted the 0)
- If the payment of CHP is not posted correctly in Meditech according to the EOB, send a WQ to cash posting

PATIENT RESPOSIBILITY:

- If it is **not** posted, add the balance

- If there is already an amount under Receipts under the column of SELFPY **BUT** it is not the complete amount of the patient responsibility; you must subtract the full amount of the patient's responsibility less the amount already paid and the result of the subtraction is the amount you will write in Meditech, which will be the current amount of the patient's responsibility.

>Example:

Patient Responsibility: 723.74 (AMOUNT YOU GET FROM YOUR MASTERGUIDE AND THE EOB)

Patient already paid: 135 (THE AMOUNT ON THE RECEIPTS COLUMN FROM SELPY)

The amount you are going to add in meditech: 588.74 (NEW PATIENT RESPONSIBILITY)

Formula: 723.74 - 135 = 588.74

Your SELPY bucket in Meditech should look like this:

5. Open the 835 and search in which facility and year the patient was attended.
6. Open the medicare pricer and then locate the facility and year on the “wage index” sheet.
